

# FRGMNT<sup>o</sup>

Everything you own was made after the Earth.

**This wasn't.**

4.5 billion years ago, a star collapsed.

It drifted through the void.

It survived the fall.

It has been waiting a long time to find you.

#### THE BRAND

---

## FRGMNT°

FRGMNT° is a USA-based meteorite jewelry company built on a simple premise: the most extraordinary thing you can wear isn't designed — it's discovered.

Every piece is a genuine iron meteorite — a fragment of the early solar system, older than the Earth itself. Each fragment is individually weighed, photographed, numbered, and permanently archived before it becomes a necklace.

Paired with natural hemp cord, every FRGMNT° necklace ships with a printed certificate of authenticity linking to its permanent archive page.

**1 / 1**

EVERY PIECE

## WHAT MAKES IT DIFFERENT

---

- **PERMANENTLY ARCHIVED**

Every fragment receives its own permanent web page with full documentation — weight, dimensions, classification, and a certificate of authenticity. No competitor offers this.

- **GENUINELY ONE OF ONE**

No two meteorites are identical in shape, weight, or structure. Each FRGMNT° piece is a scientifically unique artifact — not marketing language, but verifiable fact.

- **NUMBERED & DOCUMENTED**

Each fragment is catalogued (format EWU-2026-001), weighed to the gram, and photographed in a lightbox studio before assembly. Every physical piece links to its permanent digital record.

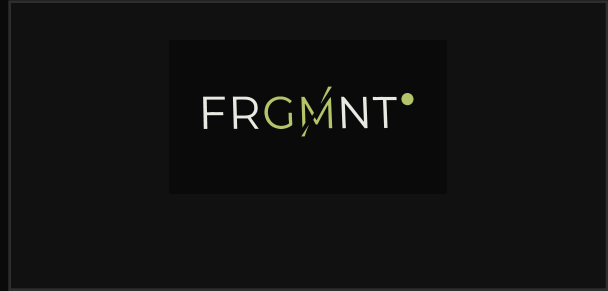

“The oldest thing you will ever own.”
