FRGMNT°

Everything you own was made after the Earth.

This wasn't.

4.5 billion years ago, a star collapsed.

It drifted through the void.

It survived the fall.

It has been waiting a long time to find you.

Ancient Iron. Natural Hemp. Yours Forever.

The logo for FRGMNT° is displayed on a dark, textured background. The letters 'FR' and 'MNT' are in white, while 'G' and 'M' are in a bright yellow-green color. The degree symbol is also in yellow-green.

THE BRAND

FRGMNT°

FRGMNT° makes jewelry out of real iron meteorites. Every piece is a fragment of the early solar system, older than the Earth itself. Nothing here is designed. It's found.

Each fragment gets weighed, measured, photographed, and given its own permanent page in the archive before it ever becomes a necklace. No two are alike, because no two meteorites are.

Every piece hangs on natural hemp cord and ships with a printed certificate that links to the FRGMNT° archive, where every fragment we've ever made is documented and kept on record.

THE ARCHIVE SYSTEM

Every fragment gets its own permanent page that never comes down.
Each one documents the piece across four categories:

IDENTITY

Fragment Number · Fragment Name · Series
Status · Fragment Story · Shape Notes
Notable Features · Curator Notes

PHYSICAL

Weight (g) · Length · Width · Height (mm)
Magnetic (tested) · Surface Condition

CLASSIFICATION

Classification · Composition
Fall Location (mapped) · Fall Date

AUTHENTICATION

Certificate of Authenticity (PDF)
COA Number

Every fragment is numbered and its record is public and permanent.
The card in each order links to the full archive, so any piece can
be traced back and confirmed as the real thing.

“The oldest thing you will ever own.”

WHAT MAKES IT DIFFERENT

- **EVERY PIECE IS ARCHIVED**

Each fragment has its own permanent page with photos, weight, dimensions, and a certificate of authenticity. Nobody else in this space does it.

- **ACTUALLY ONE OF ONE**

No two meteorites are the same shape, weight, or structure. So every piece is genuinely unique. That's not a tagline, it's just how meteorites work.

- **NUMBERED AND DOCUMENTED**

Every fragment is numbered, weighed to the gram, and shot in a lightbox before it's assembled. The physical piece links right back to its record online.

- **MADE TO LAST**

Simple care instructions ship with every order and live at exploringwith.us/care. Iron looked after well outlasts its owner, and replacement hemp cord is always available.
